Your best birth times

#	Date	Baby-out target	Best window	Still good	Pregnancy
1	Monday, 12 October 2026	7:05 AM	7:01 AM to 7:11 AM	6:44 AM to 7:38 AM	38 weeks 1 days
2	Tuesday, 13 October 2026	7:51 AM	7:49 AM to 7:54 AM	7:38 AM to 8:31 AM	38 weeks 2 days
3	Monday, 5 October 2026	7:24 AM	7:24 AM to 7:26 AM	7:12 AM to 7:38 AM	37 weeks 1 days

How to read the windows

- **Baby-out target** is the minute we aim for: the first cry, when the baby is delivered.
- **Best window** is the strongest part of the time. Anywhere inside it is excellent.
- **Still good** is the full safe window. If surgery runs a little early or late, any minute inside it is still good.
- Ask the hospital to write down the exact first-cry time to the minute. That time is used for the baby's horoscope.

Always left out

Rahu Kalam, Yamagandam, Gulika, Durmuhurtham, Varjyam, Gandamoola nakshatras, Amavasya, Vishti karana, Vyatipata and Vaidhriti yogas, a weak Moon, and the moments when the rising sign is about to change (lagna sandhi). Charts with a dosha (such as Kuja dosha or Kaal Sarpa) were also left out.

Blessings for your child

राधे कृष्ण राधे कृष्ण कृष्ण राधे राधे।
राधे श्याम राधे श्याम श्याम श्याम राधे राधे॥

A prayer to Radha and Krishna, the divine pair of love and devotion, asking that the child's life be filled with love, joy and devotion.

यत्र योगेश्वरः कृष्णो यत्र पार्थो धनुर्धरः।
तत्र श्रीर्विजयो भूतिर्ध्रुवा नीतिर्मतिर्मम॥

Wherever there is Krishna, the Lord of yoga, and wherever there is Arjuna with his bow, there will surely be prosperity, victory, well-being and righteousness. (Bhagavad Gita 18.78)

सर्वे भवन्तु सुखिनः सर्वे सन्तु निरामयाः।
सर्वे भद्राणि पश्यन्तु मा कश्चिद्दुःखभाग्भवेत्॥

May all be happy, may all be well, may all see what is good, and may no one suffer.

आयुष्मान् भव। यशस्वी भव। विद्यावान् भव।

Be blessed with a long, full life. Be blessed with good name. Be blessed with learning.

Before the day

- **Your doctor decides.** The obstetrician decides whether and when a planned delivery is safe. Use these times only inside the dates your doctor has approved, and never delay medical care for a muhurta.
- Share the hospital schedule with the doctor a few days before, so the team can plan admission, the move to the operation theatre and anaesthesia around the target time.
- If the surgery cannot happen in the window, a birth at any time is blessed. The child's own horoscope is then made from the real first-cry time.
- Ask the nurse to note the exact first-cry time to the minute.

How these times were found

Calculated with the Swiss Ephemeris, using the Lahiri ayanamsa for Vedic rules and the Krishnamurti (KP) system for the cusp sub-lords, for the hospital location Hyderabad (17.385, 78.4867, Asia/Kolkata). Every candidate minute is scored on the rising sign, the lagna lord, planets in angles, yogas, the birth star and the KP sub-lords of the 1st, 2nd, 10th and 11th cusps.

This plan is traditional Vedic astrology, for guidance and reflection only. It is not medical advice.
